

Assignment 2
Calculator JavaScript & Online
Due Feb 18 11:59 pm

1. Using JavaScript make your calculator work.
2. Make your calculator work off-line. (See chapter 9 of HTML5 & CSS3 Develop with Tomorrow's Standards Today). Host your files on rohan to test them. When you turn in your assignment include a readme file that contains the url of your assignment. (If you don't have a rohan account see http://scc.sdsu.edu/guides_rohan.php).

Turning in the Assignment

Put all your files in a single zip file and upload the assignment on the course portal. Do not use a .rar file. Don't forget to include a readme file that includes the url to your assignment.
