

Assignment 6
PhoneGap Expenses App
Due May 15 23:59 pm

In this assignment you will build an Android app that runs on mobile phones for tracking expenses using your web version from assignment 3. Use PhoneGap to convert your web app into a native Android app.

Turning in the Assignment

Put all your files in a single zip file and upload the assignment on the course portal. Do not use a .rar file.

Grading

To be added later.
